## A Volume From the Library

### New Training Resources

The library has some newly catalogued training DVDs. See some of the options below:

#### **ACCIDENT INVESTIGATION FOR FIRST RESPONDERS**

**AV14-2644** Date Acquired: 8/29/2014

**Length: 51:45** Format: DVD

**Author: QUALITY INFORMATION PUBL**

Accident analysis is the process of determining what went wrong in order to prevent further incidents of a similar kind. The people that investigate accidents include a wide range of experts like forensic scientists, engineers, and safety advisers. An important tool to the investigator is the first responder, who is often on scene before anyone else. 'Accident Investigation for First Responders,' is a first responder's guide to not damaging crucial evidence, knowing how to handle the scene, and staying safe while helping with the investigative process. Mike Bush, who is a seasoned investigator for the NTSB, presents the information at the annual, live, satellite conference held in Sun 'N Fun Airbase in Florida. C2007

#### **AIRBORNE PATHOGENS & OTHER DISEASES**

**INFECTION CONTROL & PREVENTION SERIES**

**AV14-2638** Date Acquired: 8/29/2014

**Length: 23:35** Format: DV

**Author: ACTION TRAINING SYSTEMS**

Presents airborne pathogens of concern to emergency care providers, including TB, measles, and chickenpox. Presents other diseases of concern to pre-hospital providers, including pertussis, meningitis, seasonal flu and MRSA. Presents the airborne precautions, droplet precautions, and contact precautions that can be employed in addition to standard precautions. Demonstrates what actions to take after an exposure incident. c2013.

#### **ALL ABOUT: BIG RED FIRE ENGINES**

**AV14-2610** Date Acquired: 8/20/2014

**Length: 26:00** Format: DVD

**Author: G A I A M**

It's four alarm fun learning about engines, ladders and much more as you find out what it's like to be on that big red truck, rushing out to fight a fire on an exciting, fun filled video trip with real firefighters. Watch in awe as they use a tower ladder and bucket to battle a blaze, find out how to work the truck's controls, hook a hydrant up to a pumper, and even spend some time with the firehouse mascot, Spot! Also included is All About Construction. Hop in the driver's seat and take a magic ride with Hard Hat HarryTM, the construction genie, as he shows you the 'biggest, baddest, most awesome construction equipment in the whole wide world': bulldozers, excavators, clam diggers, forklifts, compacters, pile drivers, trackhoe buckets, barrier movers, and an off-road dump truck that's so heavy it would crack a road in two just by driving over it! C1995.

#### **APPARATUS INSPECTION & MAINTENANCE**

**PUMPING APPARATUS: DRIVER/ OPERATOR**

**AV14-2616** Date Acquired: 8/12/2014

**Length: 19:52** Format: DVD

**Author: ACTION TRAINING SYSTEMS**

This program presents the tasks involved in routine pumping apparatus inspection and maintenance requirements of the driver/operator. It demonstrates a systematic apparatus inspection procedure (the 'walk-around' inspection), routine maintenance tasks, plus inspection and preventive maintenance of the fire pump. C.2013.

#### **BLOODBORNE PATHOGENS INFECTION CONTROL & PREVENTION SERIES**

**AV14-2637** Date Acquired: 8/29/2014

**Length: 24:17** Format: DVD

**Author: ACTION TRAINING SYSTEMS**

Presents types of bloodborne pathogens of concern to emergency care providers, including HBV, HCV, and HIV. Reviews standards and requirements outlined in OSHA's Bloodborne Pathogens standard. Presents standard precautions, safe work practices and engineering controls used to prevent or minimize the risk of occupational exposure. Demonstrates what actions to take after an exposure incident. C.2013

#### **INFECTION CONTROL PRACTICES INFECTION CONTROL & PREVENTION SERIES**

**AV14-2639** Date Acquired: 8/29/2014

**Length: 26:37** Format: DV

**Author: ACTION TRAINING SYSTEMS**

Introduces the common components of an Infection Control Program. Presents the chain of infection and how infection control practices break this chain. Demonstrates procedures to minimize the spread of diseases in workplace facilities and vehicles. Presents environmental controls, including proper cleaning, disinfecting, and disposal procedures. c2013.

#### **OPERATING FIRE PUMPS PUMPING APPARATUS: DRIVER/ OPERATOR**

**AV14-2615** Date Acquired: 8/12/2014

**Length: 22:14** Format: DV

**Author: ACTION TRAINING SYSTEMS**

The driver/operator's ability to operate a fire pump that provides the necessary water supply while maintaining the mechanical soundness of the pump is critical to the success of the operation. This program presents how to operate the pump using water on the apparatus, how to operate the pump using an external pressurized water supply, and how to operate the pump using water from a draft source. C.2013.

#### **Additional Resources:**

- [All recently added titles](#)
- [Suggest new training titles for the Library \(survey\)](#)
- [Online A/V Catalog search page](#)
- [General Library Services](#)

**Additional NEW titles can be found below:**

#### **POSITIONING APPARATUS**

#### **PRE-INCIDENT & FIRE SAFETY SURVEYS**

#### **SAFE OPERATION OF EMERGENCY VEHICLES**

#### **THE FIRST RESPONDER'S ROLE IN FIRE INVESTIGATION COPY 1**

#### **THE FIRST RESPONDER'S ROLE IN FIRE INVESTIGATION, COPY 2**

#### **VEHICLE & MACHINERY RESCUE**

#### **WATER & ICE RESCUE**

#### **WATER SHUTTLE & RELAY PUMPING**

#### **WILDERNESS SEARCH & RESCUE**
